

学 習 支 援 室

STUDY SUPPORT CENTER

● 学習支援室の役割 Role of the Study Support Center

近年、学生の生活環境の多様化により、毎日の学習習慣の身につけていない者が増えてきました。進級・就職等への影響が多岐であるが故に、「継続して学習する姿勢」の確立は本校の学習指導上、喫緊の課題でした。そのような状況をうけ、学生の日々の学習を支援しようと、平成22年1月に学習支援室ができました。理工系の基礎となる数学と、高専生の苦手な英語について、教育経験豊かな塾講師が、第1～2学年の低学年生を対象にして、放課後と土曜日に補習授業を行っています（3年生以上の学生への対応、他教科の支援については応相談）。一斉指導（講師1人につき学生十数人の指導形態）と、個別指導（学生個々の弱点に対応した、一対一で行う指導形態）の2形態による、きめの細かい手助けを行っています。

In recent years, there has been an increase in students that have not acquired the habit of daily study. This is due to the diversification in the living environment of students. This has had a considerable impact on school grades and job hunting and so consequently the creation of a "learn and continue to learn" attitude has become an urgent issue in our educational guidance. In response to this situation, we created the Study Support Center in January 2010 to try and support students' everyday learning. With regards to mathematics, which is the foundation of science and technology, and the poor performance of college students in English, cram school lecturers with abundant educational experience provide supplementary lessons after school and on Saturdays for students in the first and second grades (support for students in the third grade and above and help with other subjects is available on request). Detailed assistance is provided in two forms. The first is simultaneous guidance (guidance is given to students in a group format) and individual guidance (guidance is given to students in a one-on-one format that can deal with students' individual weaknesses).

COUNSELING CENTER

学生の高専生活充実支援のために、学生相談室が設置されています。学業や進路に関すること、友人関係や健康のことはもちろん、両親や担当教員に言いにくいことなど、学生の悩みや問題解決のため、プロのカウンセラーを中心に相談員（本校教員）が相談に応じています。

The Counseling Center was established in order to support students in leading fulfilling life at National College of Technology. At the center, a group led by professional counselors, along with teaching staff of our college provides guidance to help students deal with worries and solve problems. Counselors deal with issues related to studying, career paths, interpersonal relationships, health and other issues which are difficult for students to discuss with their parents or head teachers.
